

Are You Keeping Your Customers Safe?

Commercial
Indoor Air Quality

It's All Indoors.

We spend
90%
of our time
indoors

More than **60%**
of respiratory and gastric
infections are acquired
indoors

Transmission of SARS-CoV-2 is
18.7X higher*
indoors compared
with outdoor transmission

The Problem

Combatting Health Risk and Increasing Customer Comfort in Commercial Environments

- Commercial environments **bring together high volumes of individuals** from many places, requiring increased vigilance to ensure customer safety.
- Airborne diseases are more likely to spread indoors, making commercial environments potential hotspots for **pathogen spread and transmission**.
- Clean, fresh air fosters comfort and contributes to a **positive customer experience**, making them more likely to return in the future.

The Solution

Creating a Safe Environment with Air Cleaning Solutions

- Air cleaners remove harmful pollutants and create a safer environment for customers
- There are air cleaning systems that are specifically designed to remove airborne pathogens such as viruses, bacteria and mold
- Select air cleaning systems that have proven efficacy over time and require no maintenance

H₂O₂ molecules attack bacteria's outer shell and disabling it.

TADIRAN AIROW 3™

for Wall-Mounted Air Conditioners

TADIRAN AIROW 3™ is a hydrogen peroxide-based air cleaning device for wall-mounted air conditioners. It is a zero-maintenance solution it is a highly effective against pathogens and has low electricity usage.

It is a unique add-on device that is compatible with mini-split air conditioners, fan coils, PTACs, ceiling cassettes and VRF ductless split systems.

How it Works

TADIRAN AIROW 3™ uses a discharge current to break apart O₂ (Oxygen) molecules into two separate O atoms. The free oxygen atoms, combined with water (H₂O) molecules in the airflow, transform into purifying Hydrogen Peroxide (H₂O₂). The Hydrogen Peroxide is then distributed through the indoor air conditioning unit, traveling into the conditioned space and thus reducing aerosol pathogens.

H₂O₂ Patented Technology

VOC Emission Safe
& Ozone Free

Effective Against
Biological Pathogens

Plug & Play Installation

Zero Maintenance

Low Electricity Usage

Proven to Be Safe

TADIRAN AIROW™ technology was rigorously tested and found to meet the occupational exposure limit of Hydrogen Peroxide as defined by OSHA (7ppb-15ppb vs. 1ppm).

A Wall-Mounted Air Purifier is the Optimal Solution

Beyond protecting your health and ensuring that everyone in your space can breathe easier, a wall-mounted air purifier provides several additional benefits¹:

Improved Efficacy - accessible horizontal and vertical airflow is crucial in order to control airborne pathogens in the room.

Maintenance-Free - TADIRAN AIROW is maintenance-free. There is no need to change parts or call a technician for an annual checkup. It requires zero maintenance.

Space Saving Convenience - no need to place an additional unit, as the air-purifier is installed within a wall-mounted unit or a cassette.

Kids and Pets - out of reach of children and pets.

1. TADIRAN AIROW 3 device was tested in the US-based internationally recognized laboratory Innovative Bioanalysis, which is BSL3 accredited. | 2. TADIRAN AIROW 3 reduced the aerosol of Streptococcus pyogenes in 36 cubic meter test chamber, by 100% within 120 min. | 3. Independent tests commissioned by Tadiran showed that TADIRAN AIROW™ technology eliminated known aerosolized pathogens under optimal testing conditions. To learn more about the tests, visit www.tadiran-international.com/scientific-testing. | 4. Only qualified and licensed HVAC technicians may install TADIRAN AIROW. | 5. TADIRAN AIROW is verified as zero ozone. Does not emit more than 0.005PPM as tested per UL 867. | 6. World Health Organization EPA report on the environment <https://www.epa.gov/report-environment/indoor-air-quality>. Pre COVID-19. | 7. TADIRAN AIROW 3 reduced detected SARS-CoV-2 aerosol levels by 99.93% within 1 hour (16 cubic meter test chamber). | 8. TADIRAN AIROW 3 reduced MS2 levels by 99.994% in 1 hour (1 cubic meter test chamber). | 9. TADIRAN AIROW 3 reduced detected Bacteria Staphylococcus epidermidis aerosol levels by 99.994% within 1 hour (1 cubic meter test chamber) | 10. TADIRAN AIROW 3 reduced Aerosol of Blue Mold by 99.4% within 3 hours in a 25m³ chamber. | 11. TADIRAN AIROW 3 creates <15 ppb H₂O₂ based on a test conducted by LSC Laboratory inc. | 12. TADIRAN AIROW 3, tested by TUV and Intertek, does not emit more than 0.005PPM. | 13. All pictures shown are for illustration purposes only. Actual product may vary.
